### October 2022 Climate Summary for West Central and Southwest Florida

October 2022 was rather warm and humid on many days, but there was a decent cool down for a few days during the third week that helped to keep average temperatures near to a few degrees below normal for the month.

Rainfall in October 2022 was mostly below normal with some spots here and there seeing above normal amounts. Amounts were so low in some areas that several of the official NWS climate locations ended up in the Top Ten Driest for October. However, these below normal amounts are not as significant in October compared to the summer months since the average rainfall for the month is only about 2.00 to 3.50 inches across the area.
